

"We are living our dream."

– Ronda, Liz & Nancy

Ronda Perkins

Administrator, COO

I am a person who truly started on the ground floor in the senior care industry. My career includes being a direct caregiver, home manager, administrator, and vice president of operations for a large multi-state senior care company. I understand that having owners who are on the campus daily provides peace of mind for our families and allows us to empower our staff on a daily basis. I have a blast being the COO of this company.

Liz von Wellsheim,

MSN, MA, GNP

Medical Director, CEO

I have been passionate in the care of elders since my childhood. I have worked with elders for the past 25 years, in their homes, care centers, hospitals, and medical clinics. I have two Masters degrees from the University of Pennsylvania, one as a Geriatric Nurse Practitioner and the second in Social Gerontology. I have served on national and state boards, all committed to the improvement of care for seniors.

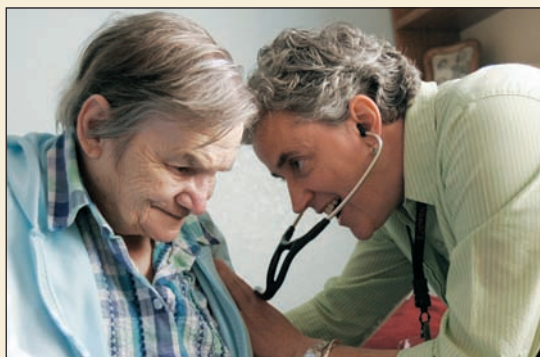

Nancy Koll

Nurse, CFO

I love being the CFO, it allows me to be part of a caring community where I can integrate financial oversight with best practices. I have more than 25 years of experience in long term care as a nurse, administrator, vice president of operations for large senior care organizations, and owner of an in-home care company.

HOME

- Each home integrates security and safety with a sense of freedom.
- Our nine memory care homes are designed for residents to participate in routine home activities, such as: cooking, washing dishes, laundry, cleaning, and 'puttering'.
- Meal times are flexible, with snacks and beverages available anytime.
- We serve local dairy, meats, and organically grown produce whenever possible.
- Outdoor areas have spaces for walking, gardening, and exploring.
- Each employee is a valued team member.
- Each resident becomes part of a warm and caring community.
- Family and friends are always welcome – 24/7.
- Each home looks, smells, and feels like home.
- We offer an all male home for when this option is necessary.

A great place to live

HEALTH

- Person centered team approach to care that puts the resident in the center and includes families and all staff: from the hands on direct caregivers to the administrator.
- Solutions to keep each resident physically healthy and as mentally active as possible.
- Medical visits occur in the resident's home, minimizing transportation expenses and challenges.
- 24 hour awake staff to allow residents to sleep or be awake on their own schedules.

COMMUNITY

- We support local contractors, landscapers, and vendors.
- Year around fund raising efforts for the Alzheimer's Association.
- We present workshops and educational trainings for families, care partners, and health care professionals.
