

Indoor Visiting Rules

Welcome friends and families to your indoor visit! We are so happy that you can visit with your loved one in our Club during this difficult time. To keep our residents safe, there are some rules that need to be followed during your visit with us.

- All visitors must wear a face mask or covering during the entire duration of the visit.

- Limit of two visitors at a time and visits are a maximum of 30 minutes.

- No food or drink are permitted except for visitors with personal water. This cannot be shared with our residents.

- All visitors must maintain a social distance of at least 6 feet from our residents for the entire duration of the visit.
- All visitors must remain in the designated visitor's area.

- Failure to comply may result in restricting future indoor visits.

Thank you for assisting our team in keeping your loved one safe.

Enjoy your visit!
