

# Outdoor Visiting Rules

*Welcome* friends and families to your outdoor visit! We are so happy that you can visit with your loved one in our park during this difficult time. To keep our residents safe, there are some rules that need to be followed during your visit with your loved one.

*All visitors must wear a face mask or covering during the entire duration of the visit.*

*Visits will be 30 minutes long with a maximum of two visitors per resident.*

*No food or drink are permitted except for visitors with personal water. This cannot be shared with our residents.*

*All visitors must maintain a social distance of at least 6 feet from our residents for the entire duration of the visit.*

*All visitors must remain in the designated visitor's area under the covered portion of our park, unless walking down the left side of the path to enter or exit the park.*

*Failure to comply may result in restricting future outdoor visits.*

*Thank you for assisting our team in keeping your loved one safe.*

*Enjoy your visit!*
